This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. In the 14 Chapter of the 6th Precept in this Book, is this remarkable Passage of Fair Rosamond. We rede that in Englonde

was

was a King, that had a Concubyne whose Name was Rose, and for hyr greate Bewte he cleped hir Rose amounde, *Rosa Mundi*, that is to saye, Rose of the Worlde, for him thought that she passed al Wymen in Bewtye, it befel that she died and was buried whyle the Kynge was absent, and whanne he cam agen, for grete Loue that he had to hyr, he wolde se the Body in the Grave, and whanne the Grave was opened there sat an orible Tode upon hir Breste bytwene hir Teetys, and a foule Adder bigirt hir Body aboute in the Midle, and she stanke so that the King ne non other might stonde to se that oryble sight, thanne the Kynge dyde shette agen the Grave, and dyde wryte these two Veersis upon the Grave.

Hic jacet in tumba Rosamundi, non Rosa munda
Non redolet sz. olet quod redolere solet.

That is thus to sey in Englisth. Here lyethe in grave, Rose of the World, but not clene Rose, she smellethe not sweete, but stynketh ful foule that sumtyne smelled ful swete.

4557 *A Visitation made by Thomas Hawley, Clarencieux Kinge of Armes, in the Counties of Surry, Essex, Southampton, &c. Anno 6. of Edw. 6. a Manuscript*, 2l 2s

4558 Chronicle of England, a very ancient Manuscript on Vellum, beginning thus. *Here may a Man here how Engelonde was ferst callede Albyon, and throug wham hit had ferst that Name.* This Title is wrote with Red Ink, then follows, *In the Noble Lande of Surre, there was a noble King and Almyghty and a worthie Lord of Name, that Men callede* Dioclician, &c. This Chronicle is brought down to the Battle of Halydown Hill, about which Time it seems to be wrote in 1332

4560 Treatise concerning the Nobilitie of England, according to the Laws of England, M. S. 2l 2s

4561 Biblia Sacra, t. 2. sine Anno aut Loco

The above Volume has every mark that may induce us to rank it amongst the earliest productions of the German Press.
